1. Visit the Liquidity page.
(https://pancakeswap.finance/liquidity)
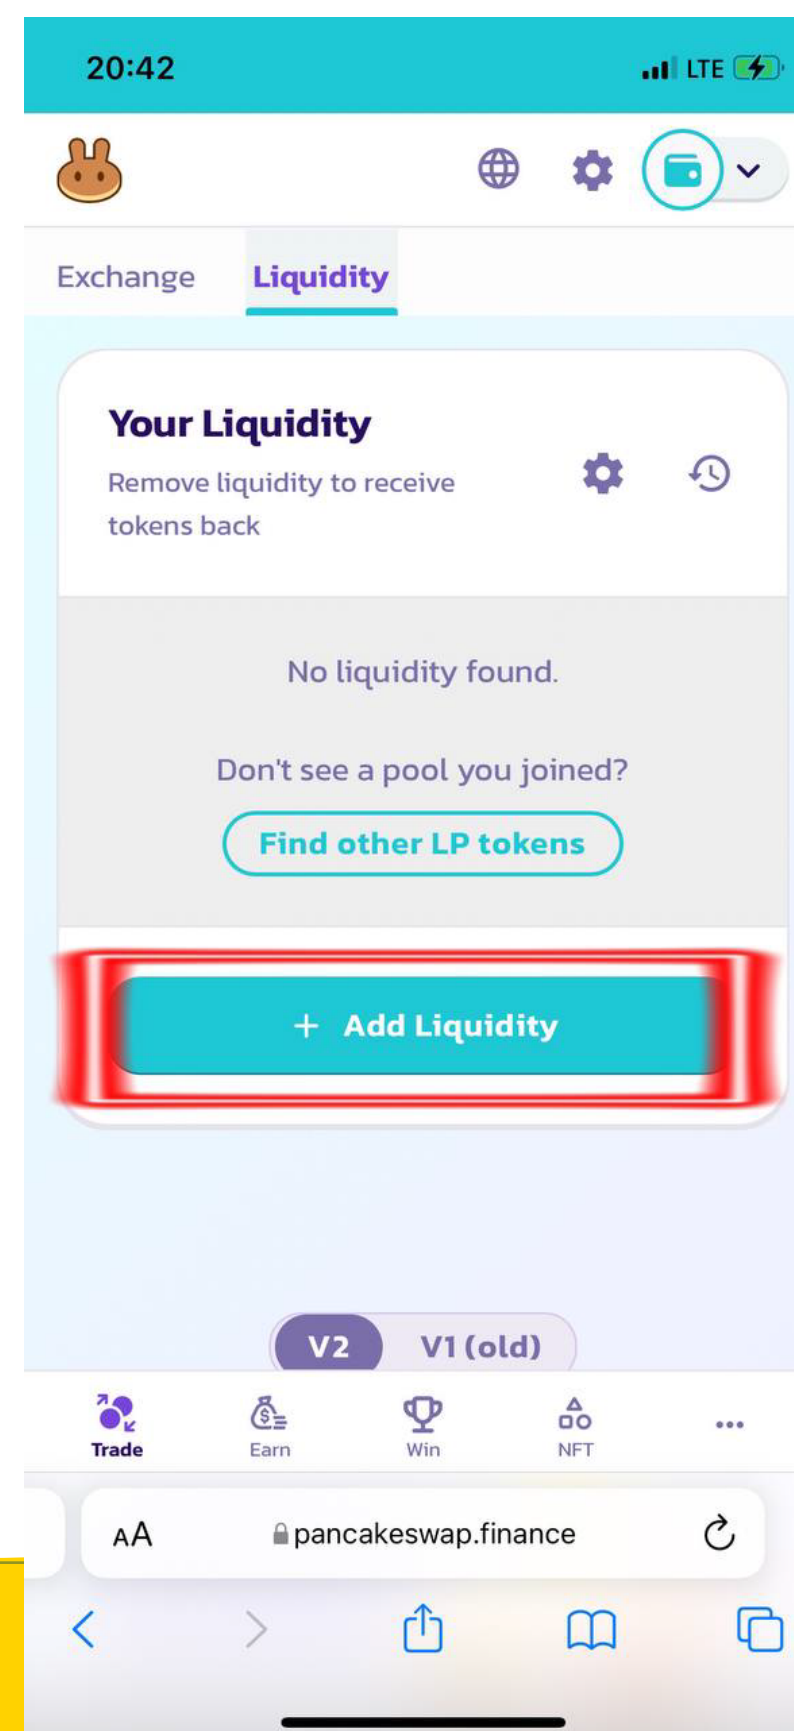

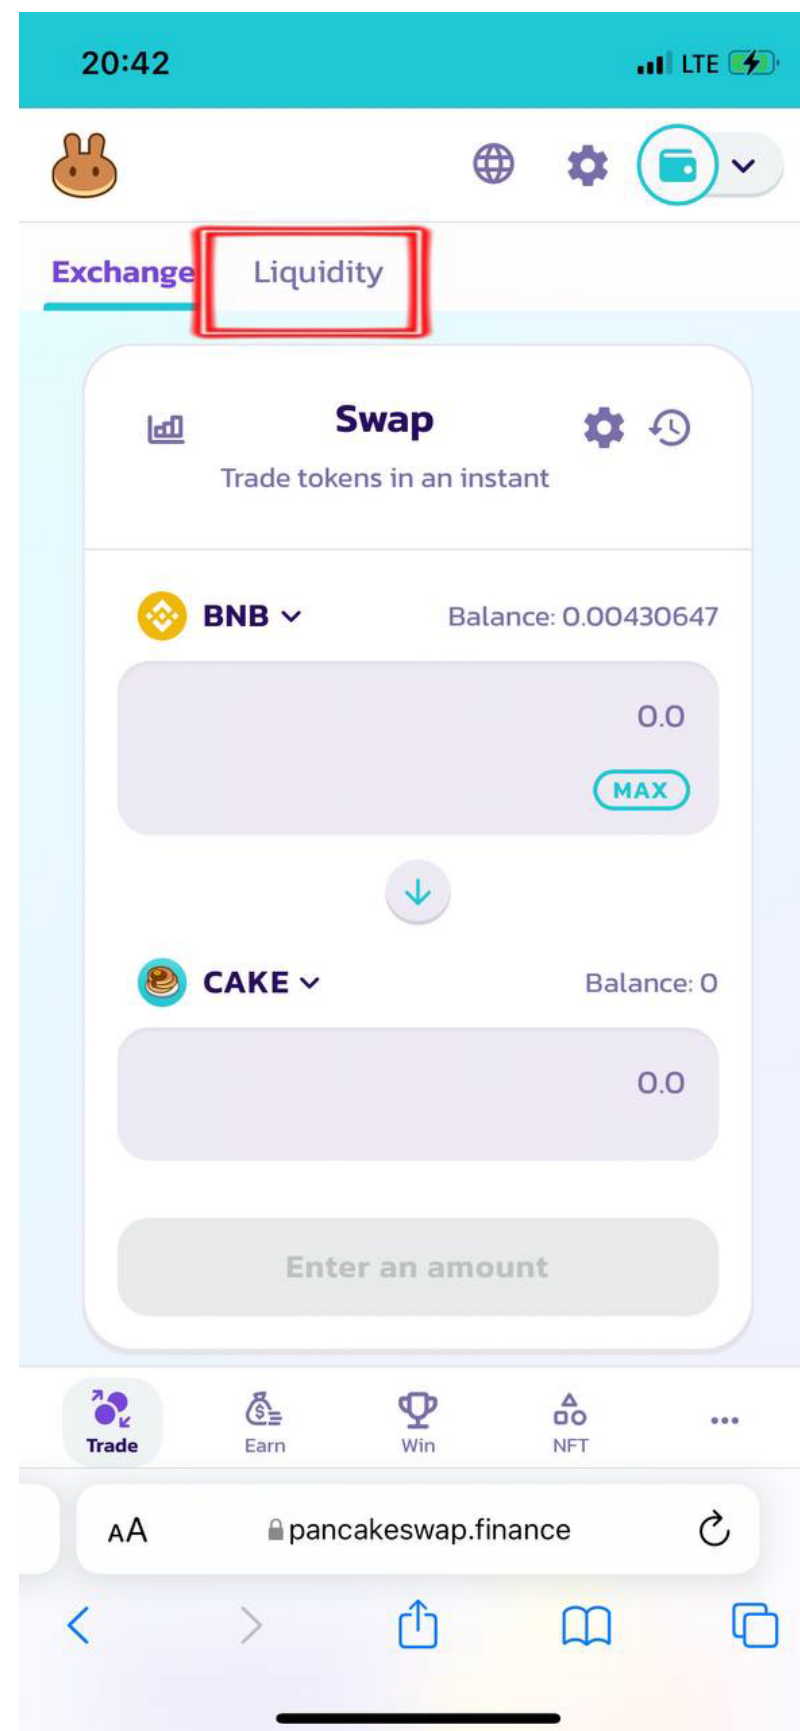

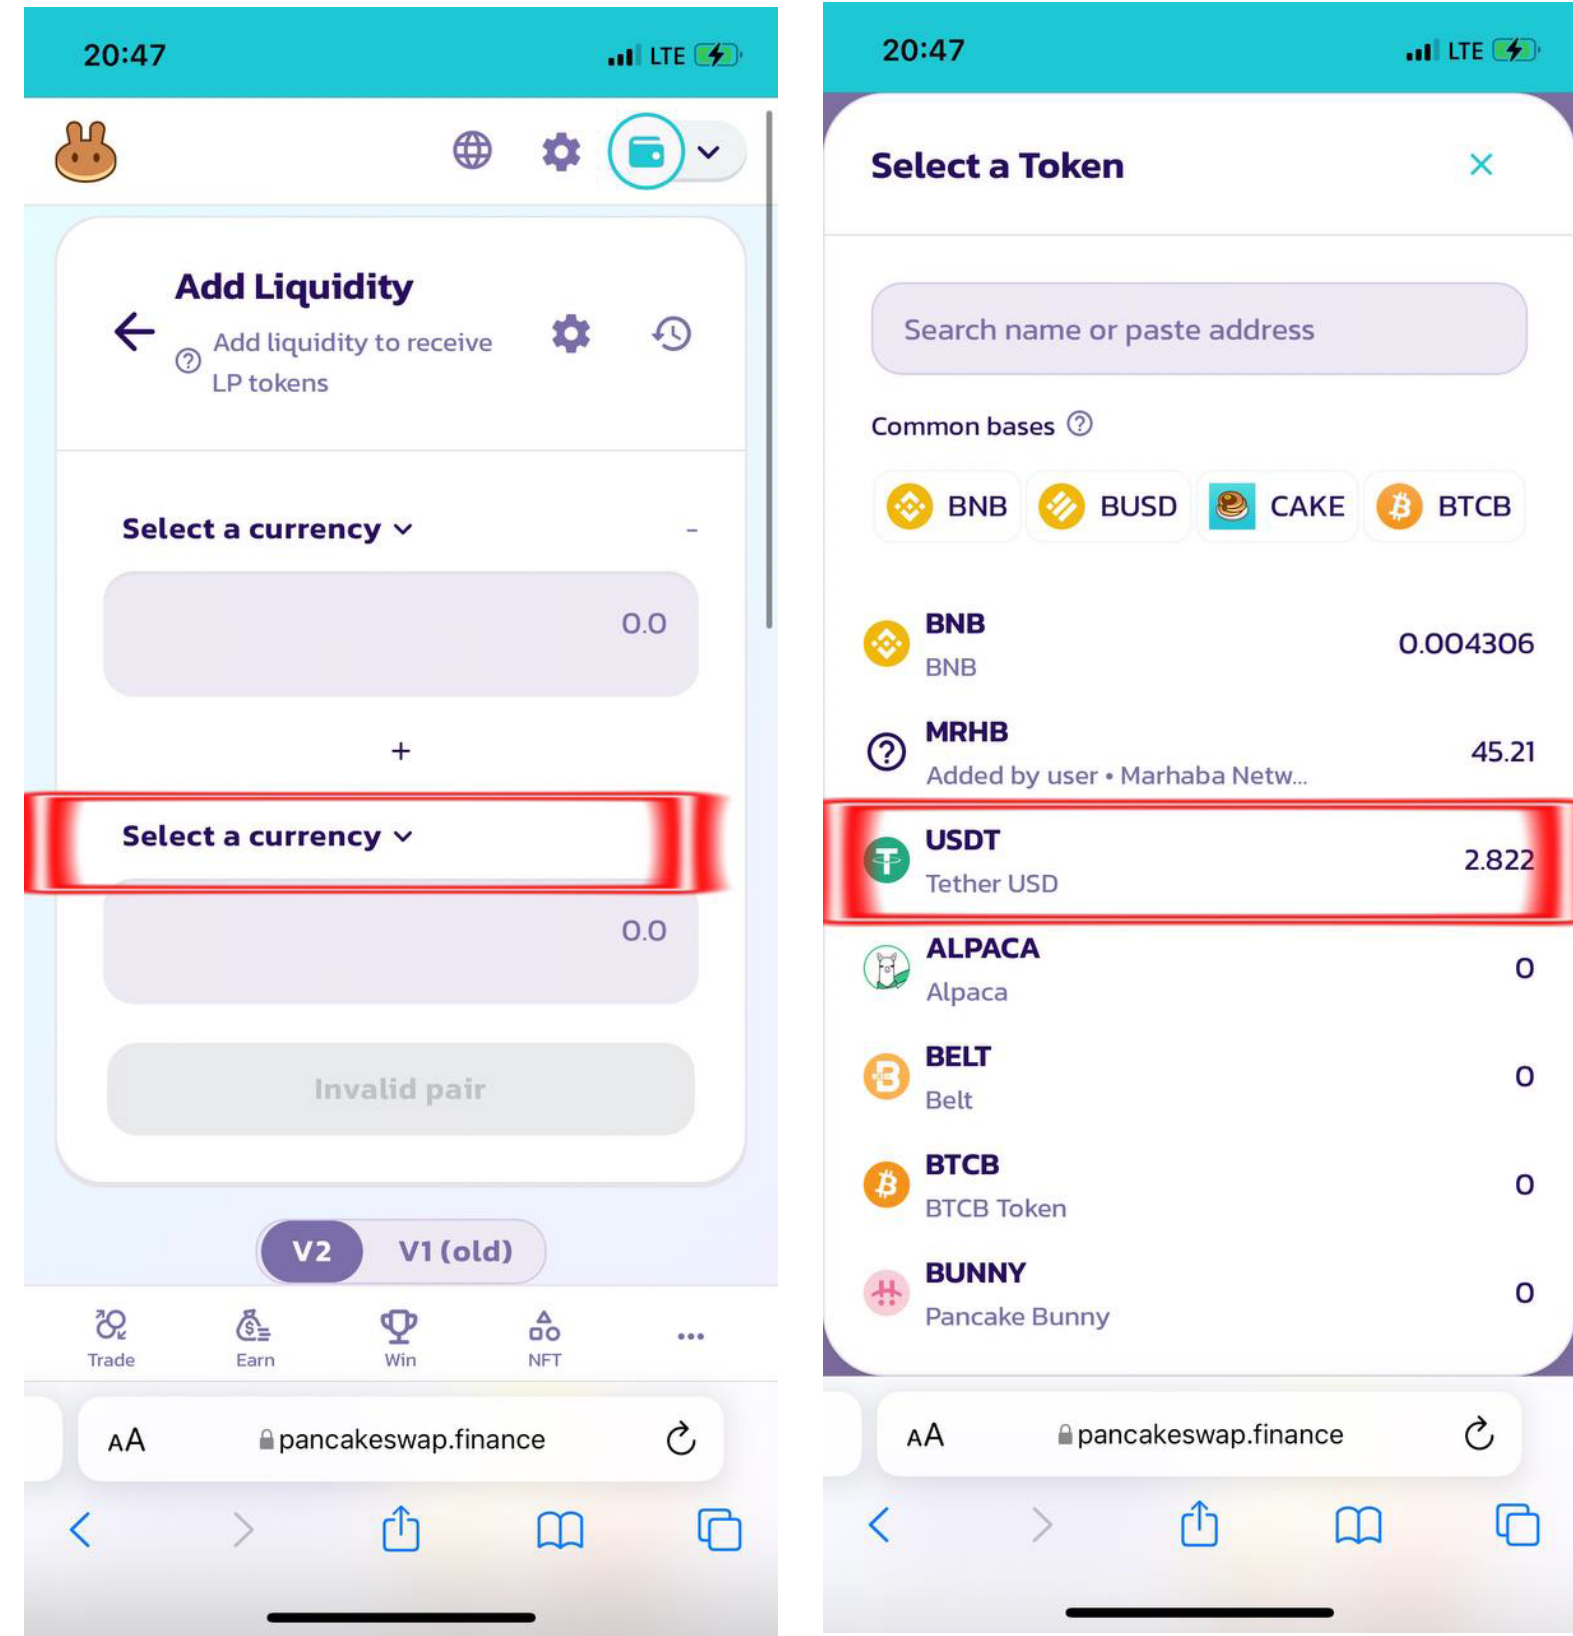

2. Click the Add Liquidity button.

3. For the top Input, click 'Select a currency'. Then choose one of the token in the liquidity pair you want to add liquidity to. Here, we are gong to use MRHB
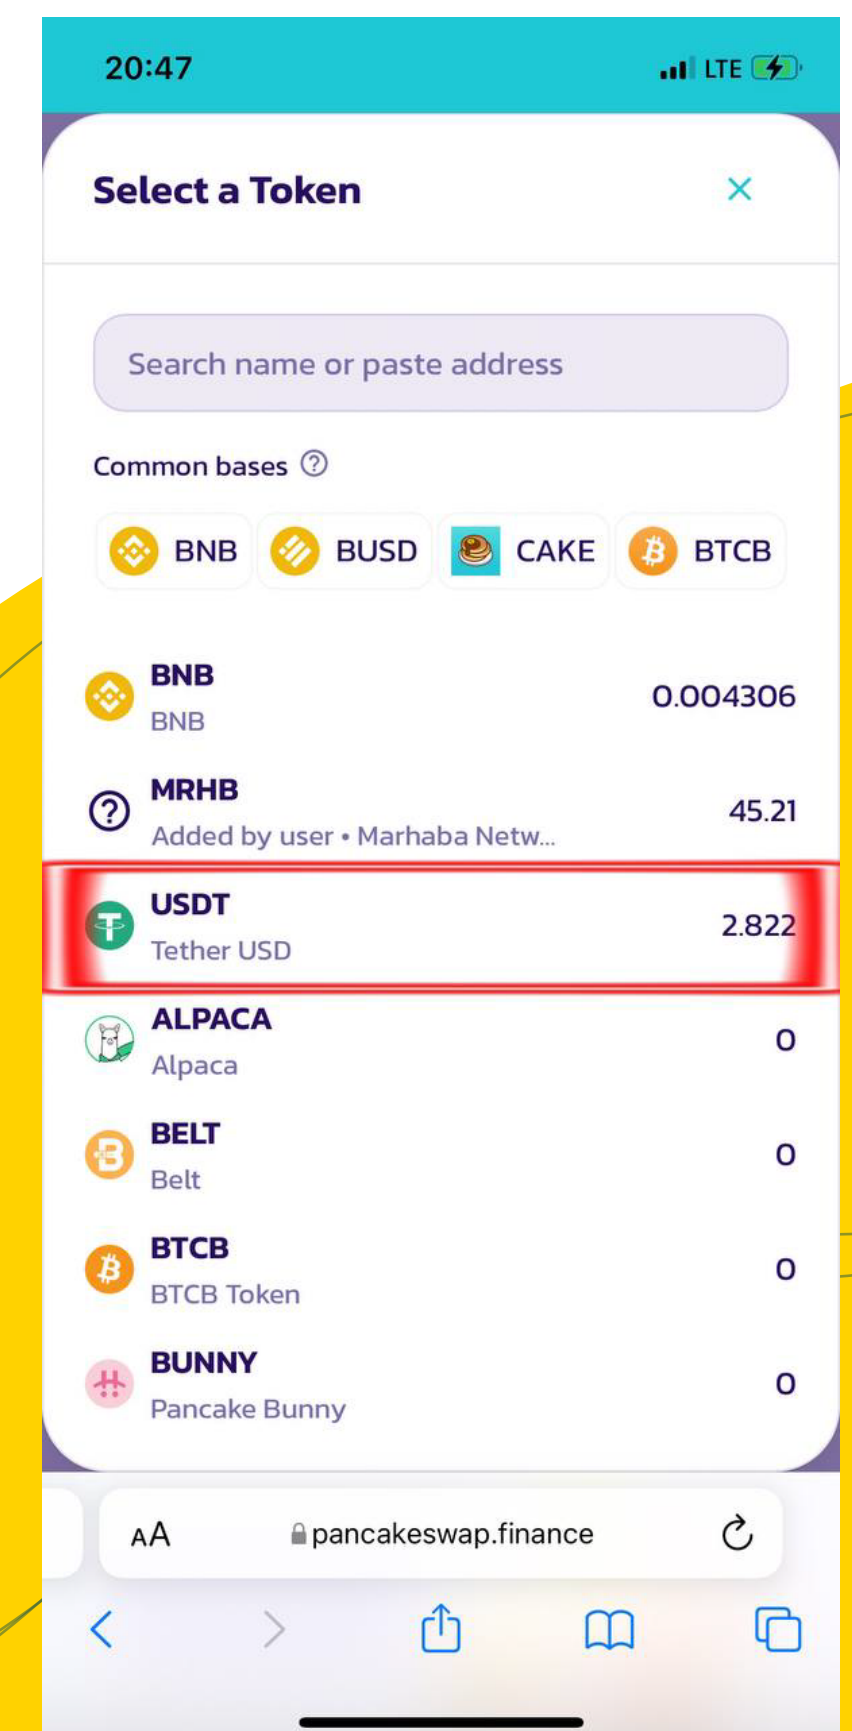

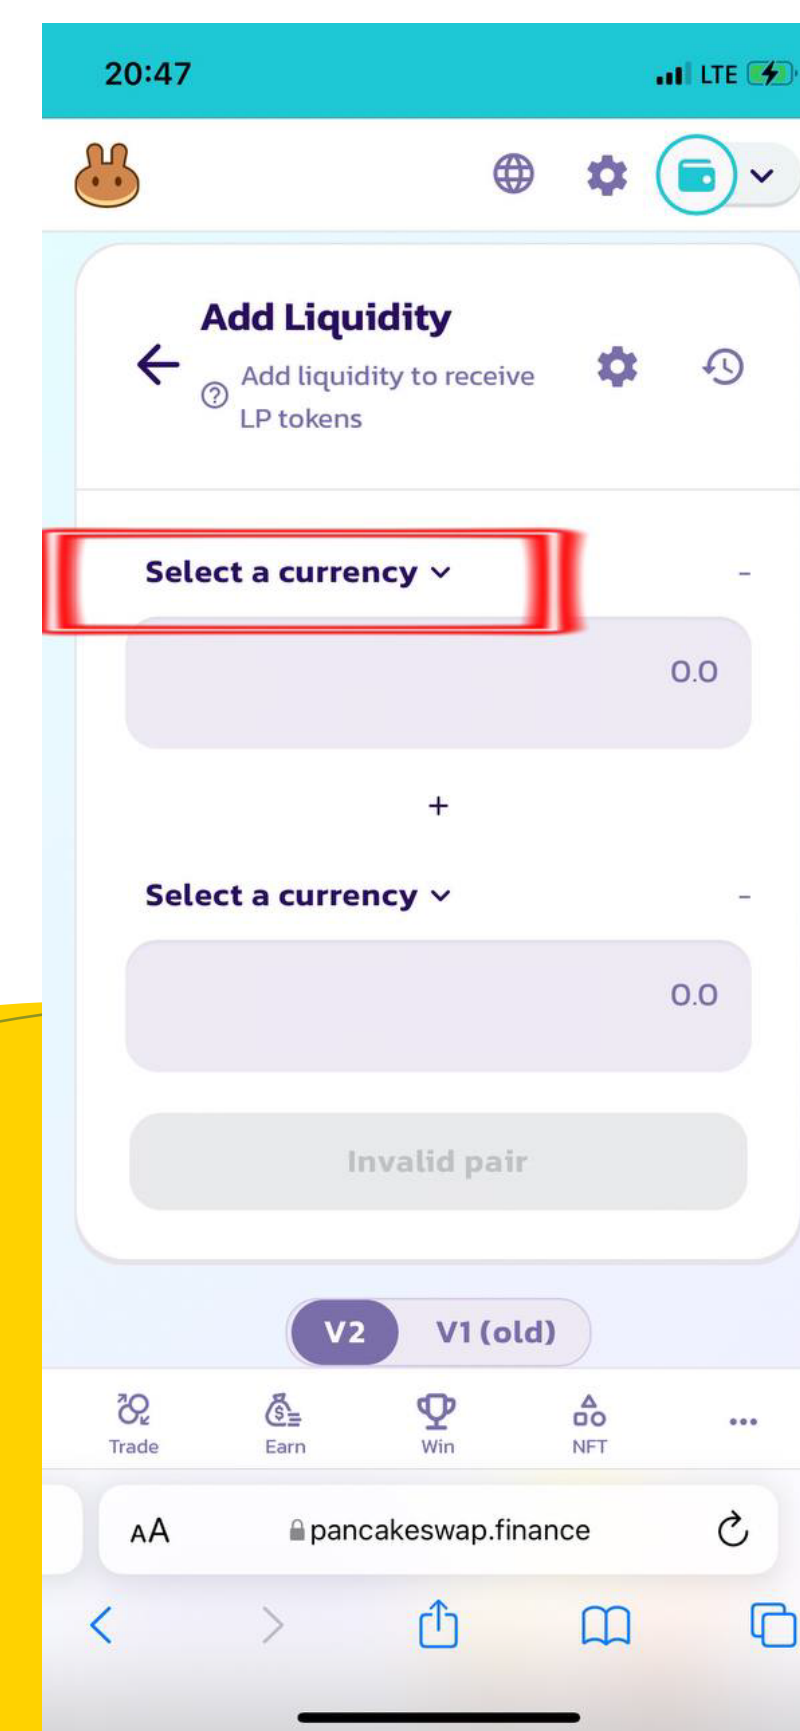

4. For the bottom input, click 'Select a currency'. And choose the other token in the liquidity pair you want to add liquidity to. Here, we are gong to use USDT as an example.

5. Enter an amount on one of the tokens under "Input". The other should be calculated and filled automatically.
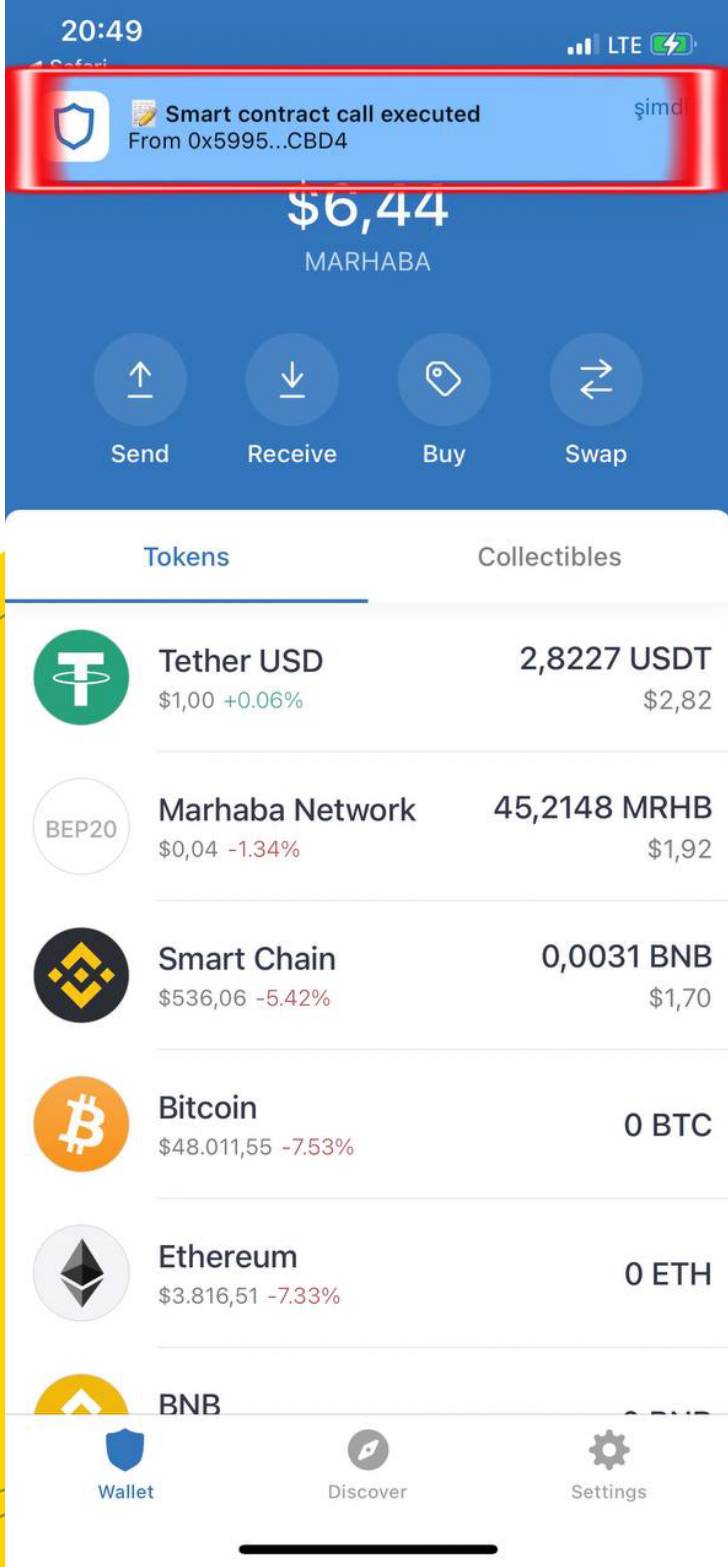

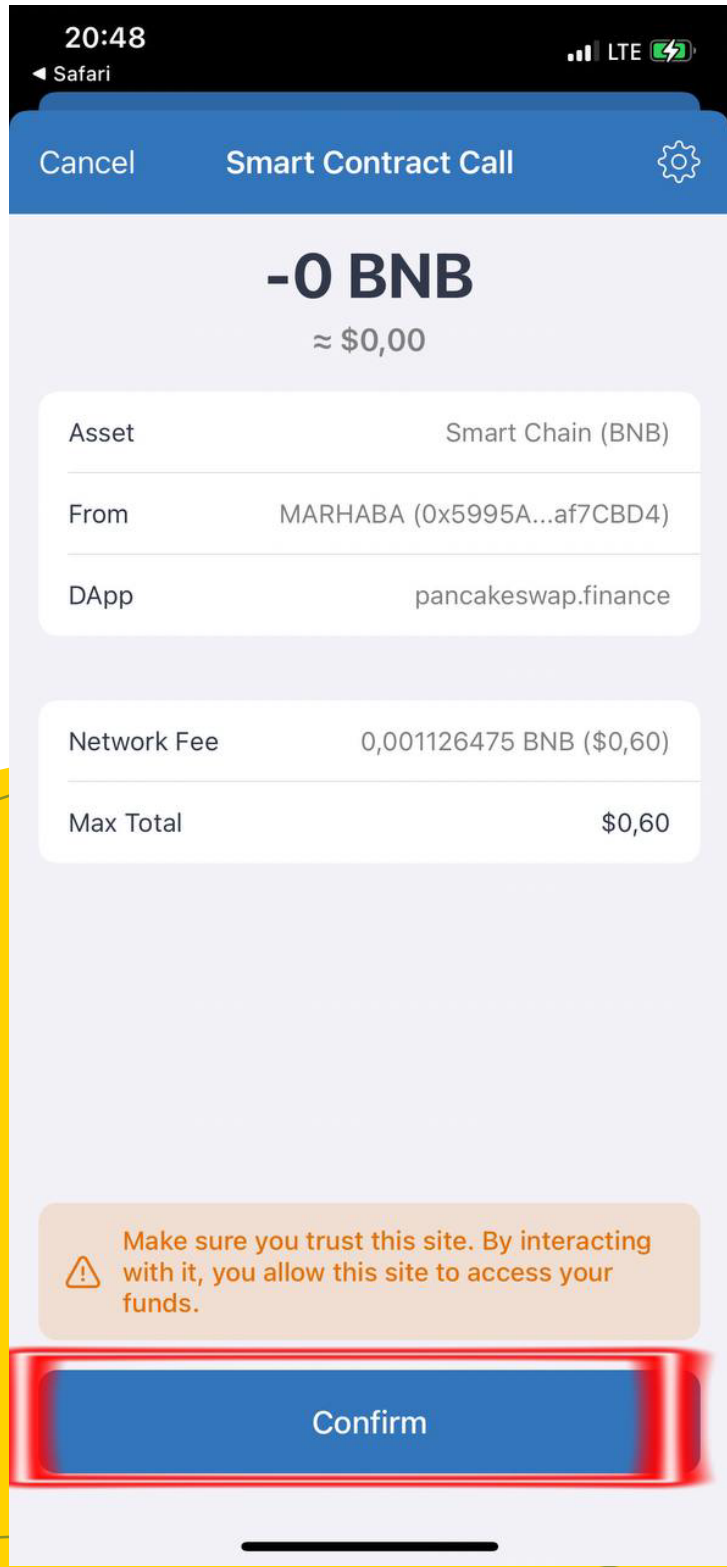

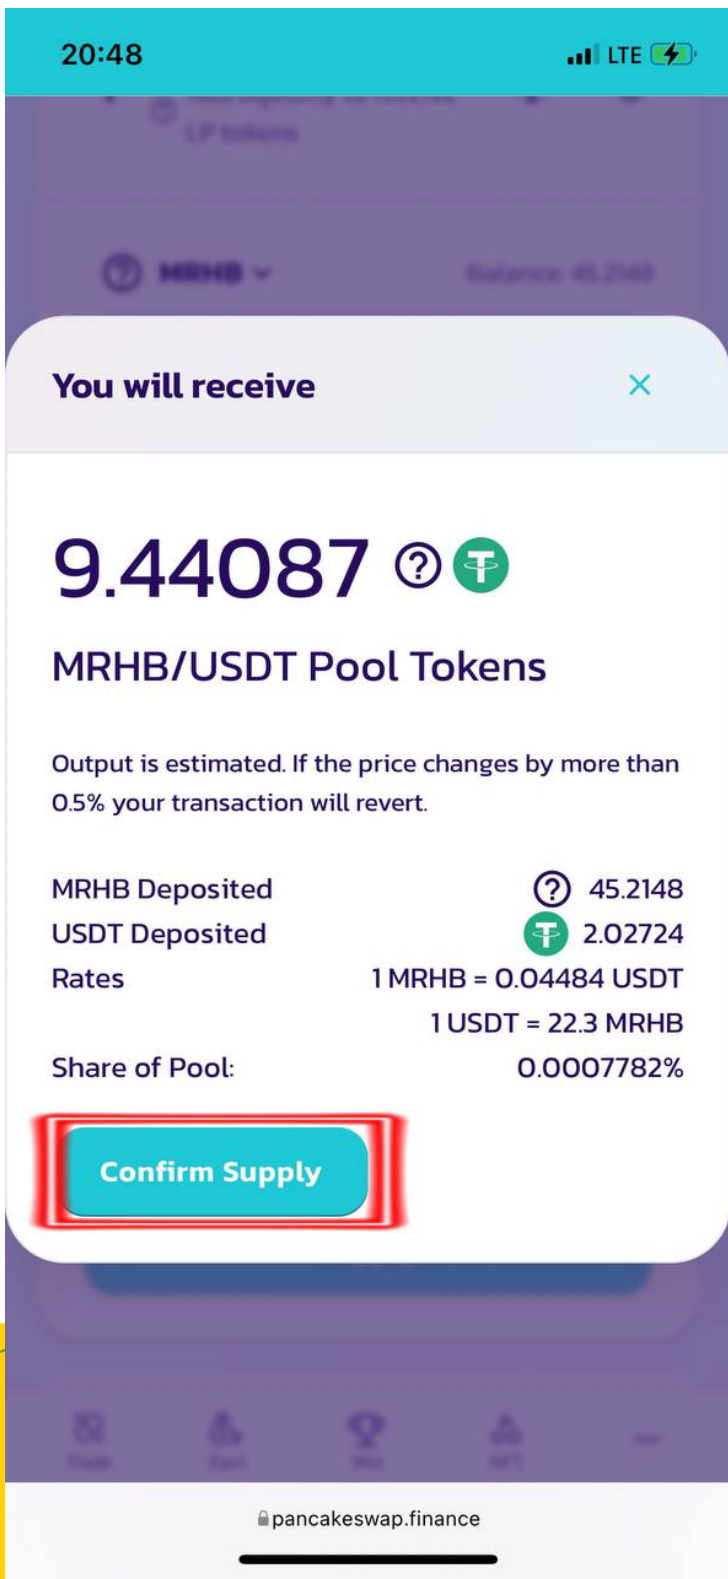

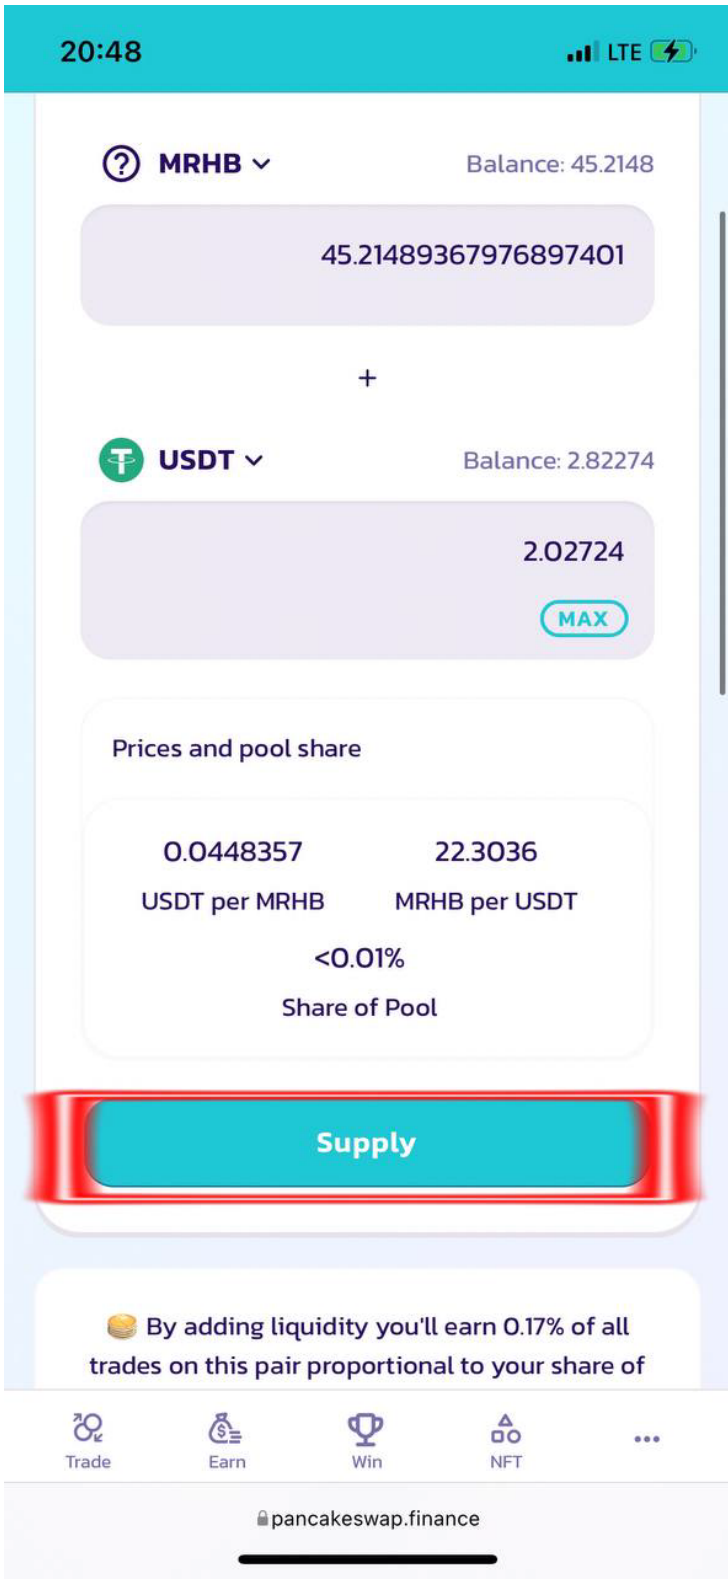

(If one of the token does not have enough balance. You will see an error and the button being greyed out. Please enter a lower amount to proceed.)
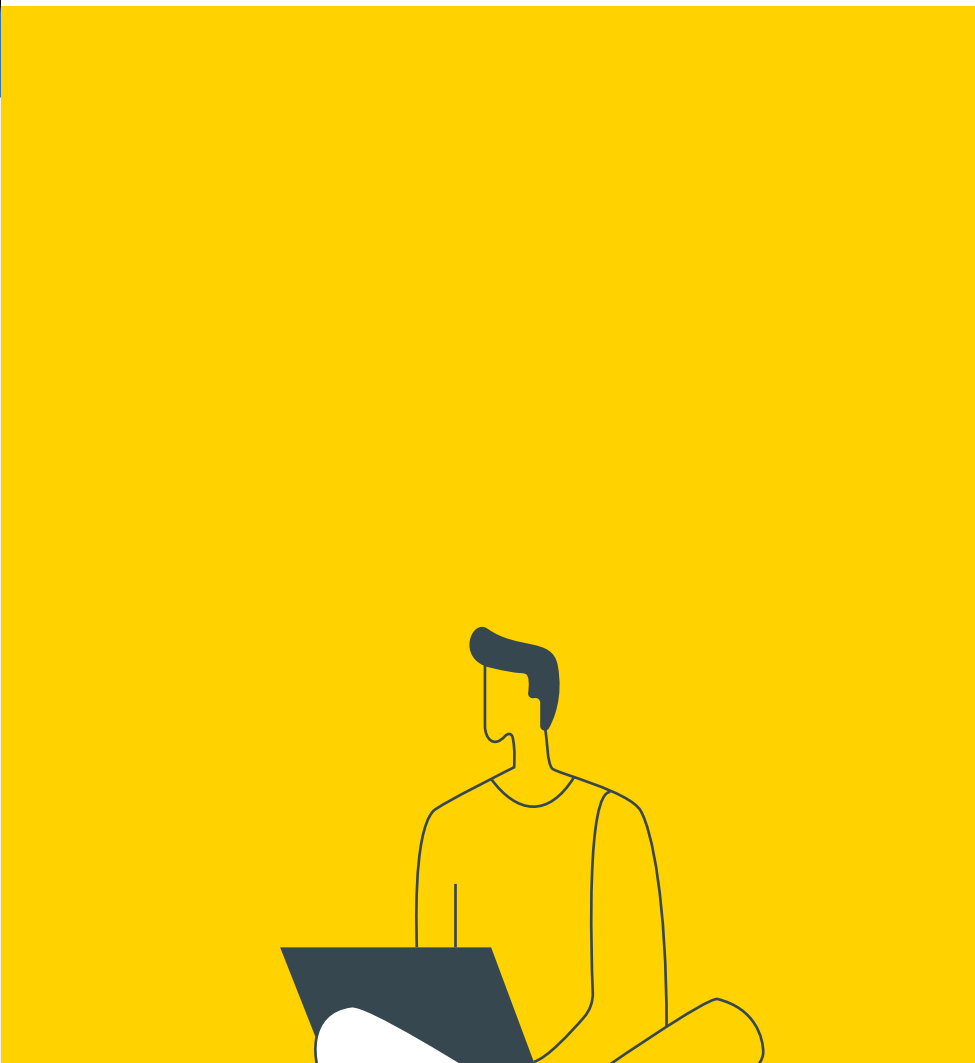

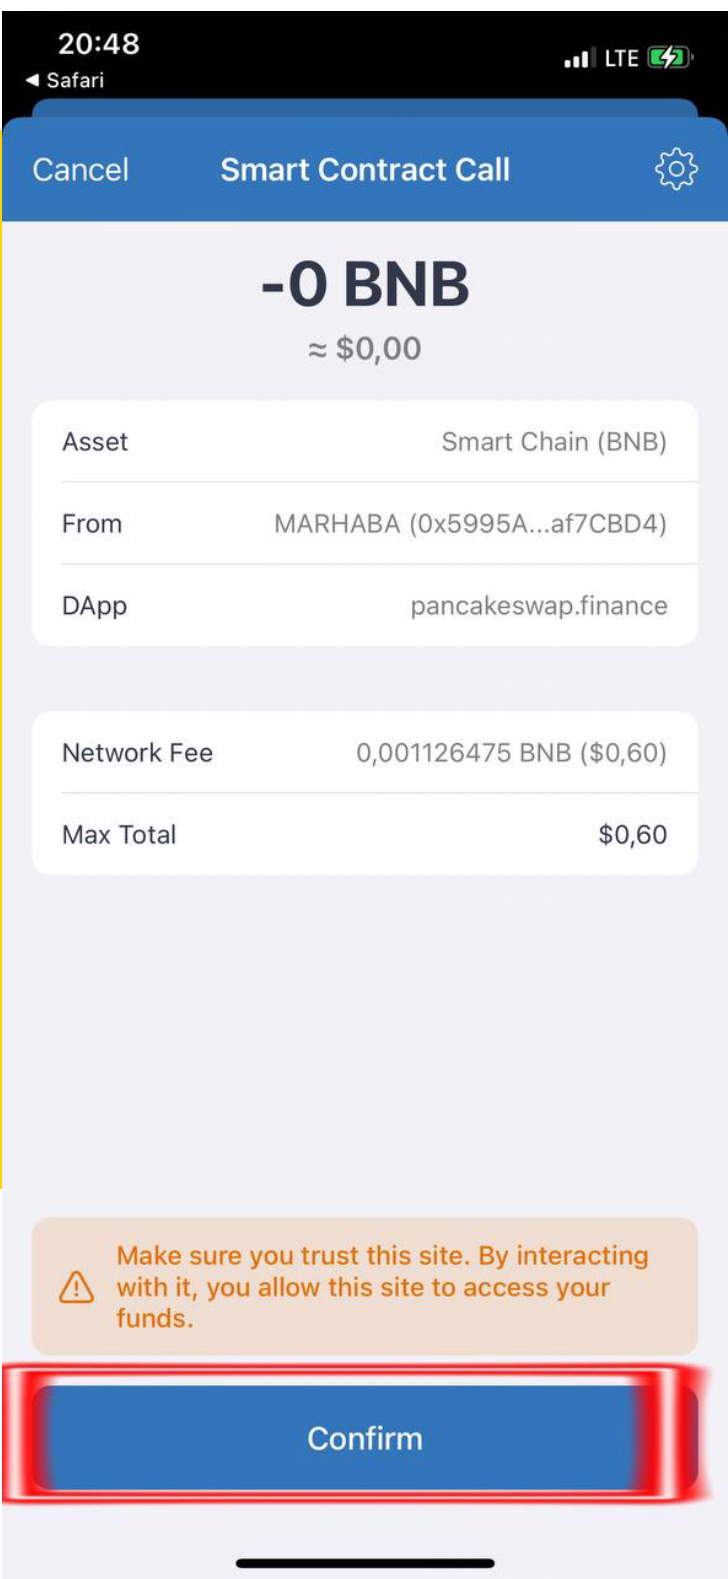

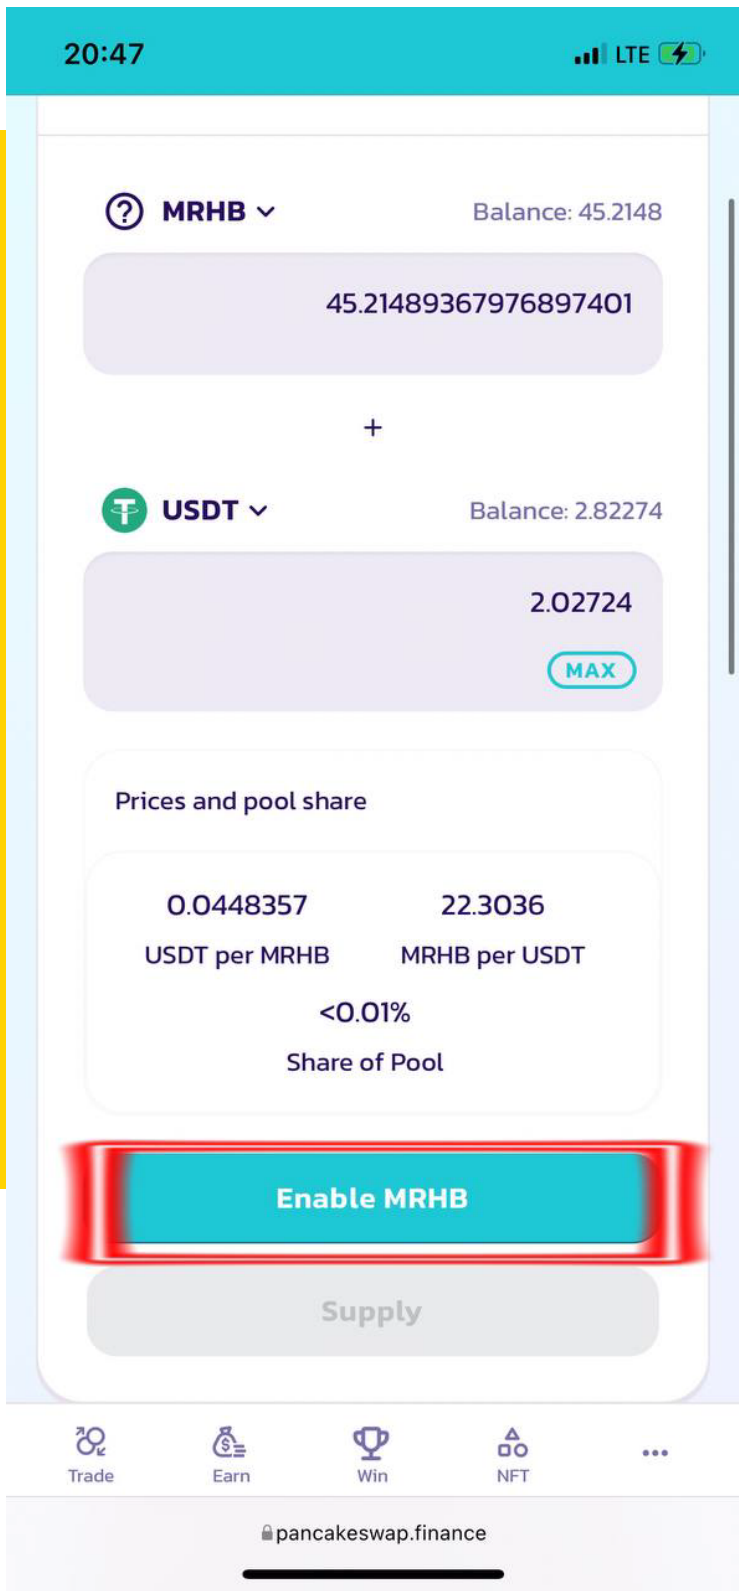

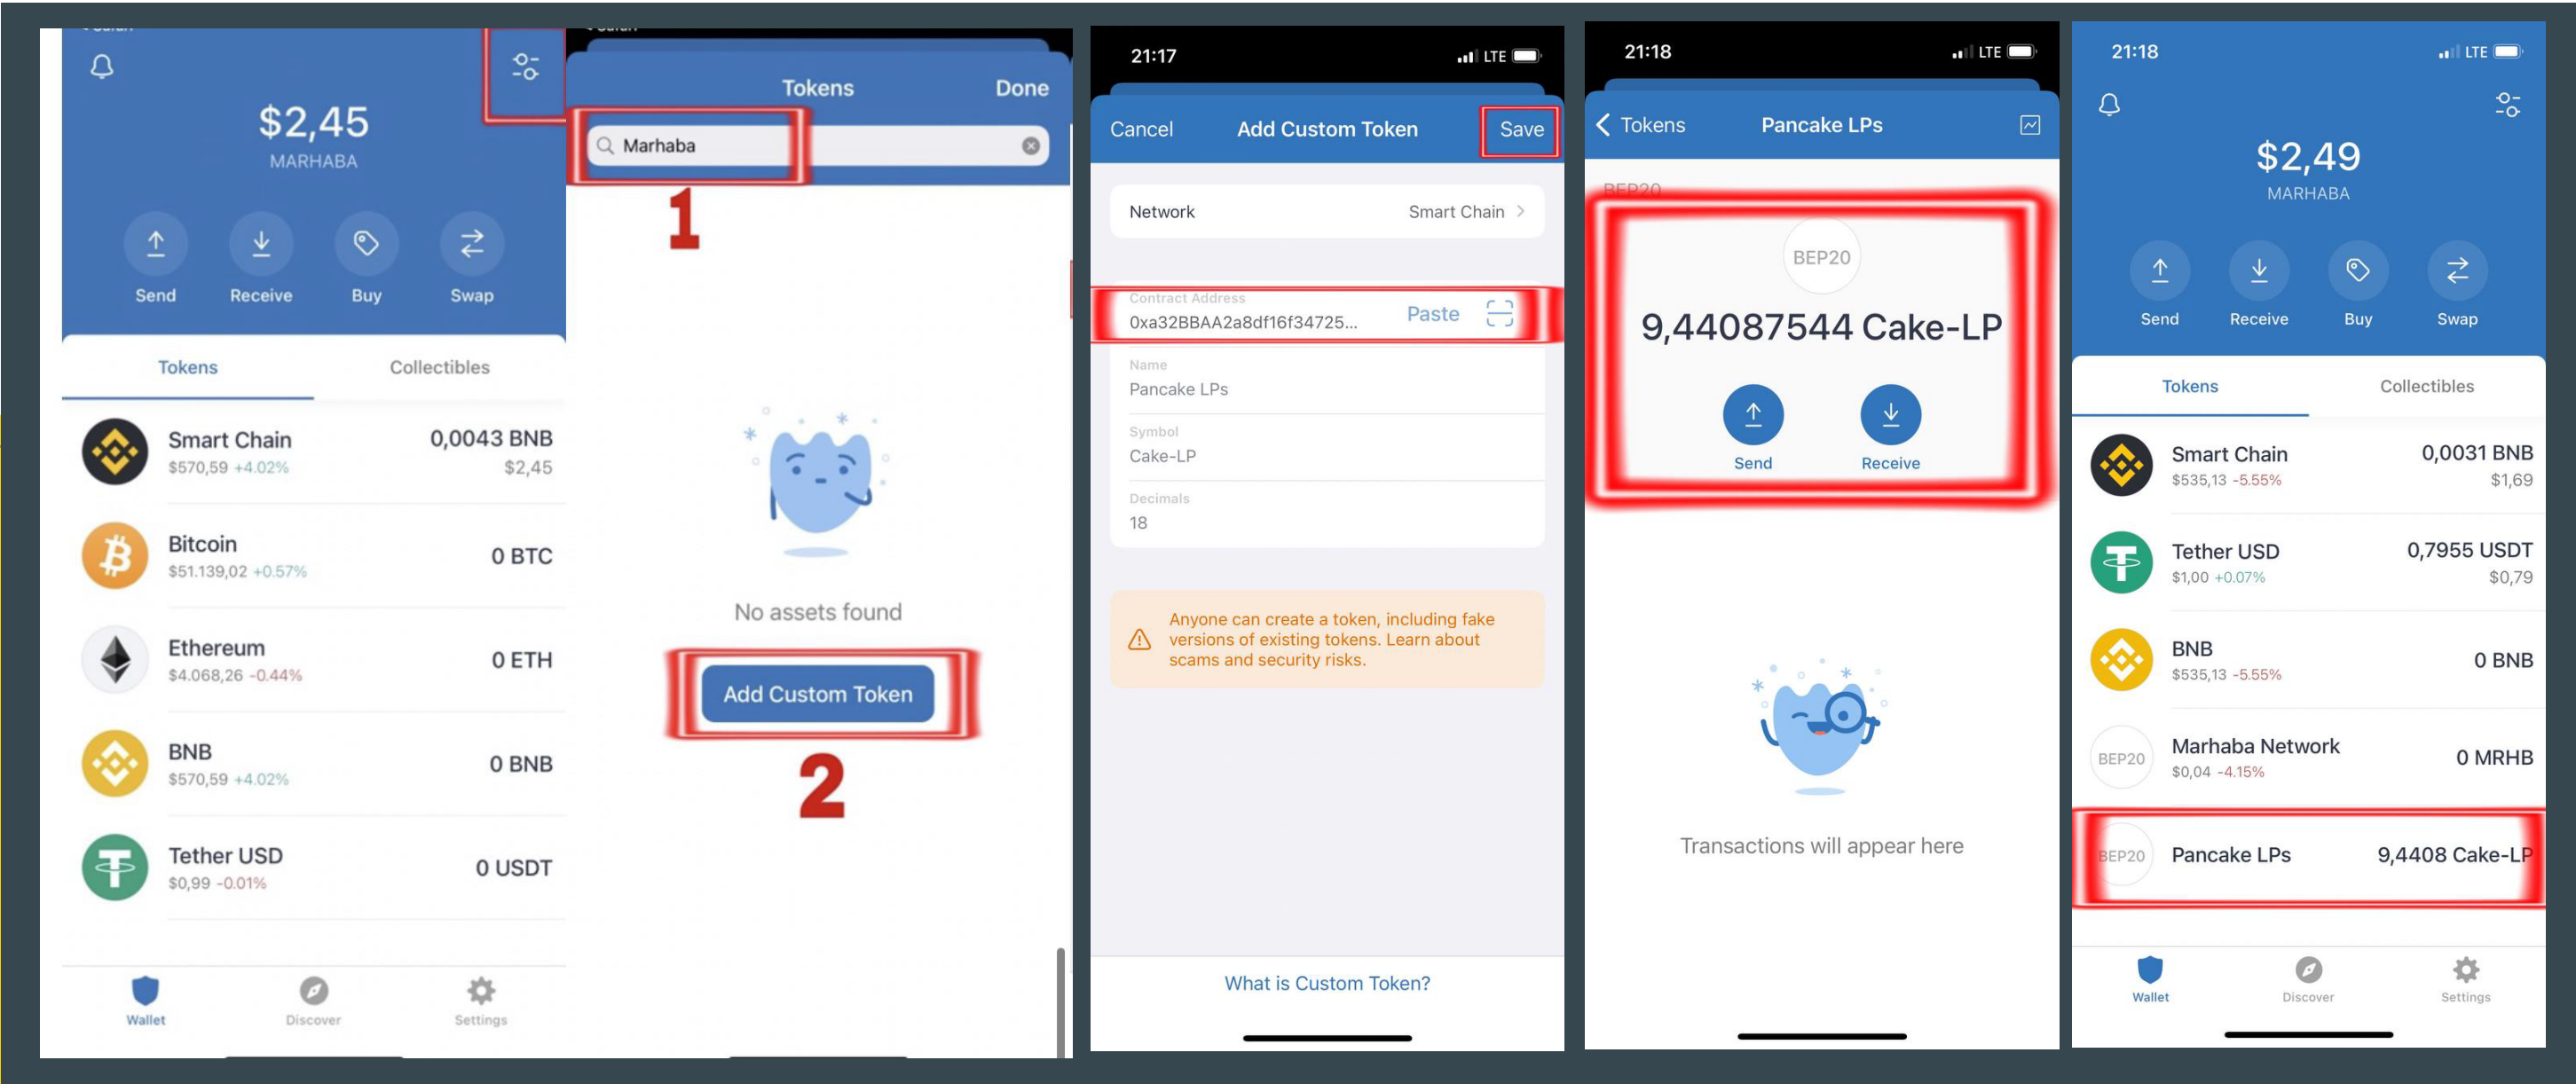

6. Click the Enable MRHB button.
Your wallet will ask you for confirmation.
Confirm your transaction from your wallet.

7. The Supply button will then light up. Click to proceed.
